

Apple TV & Sonos

Apple TV opens by pressing the power button on the silver remote control. If you only want to watch live broadcasts, use the TV remote control.

You can log in to your own applications via Apple TV. (Netflix, Ruutu, etc.) You cannot log in to Apple TV with your own Apple ID!

You cannot connect your own “wired” devices to the television, and you must not lift the television from its place! Apple TV’s AirPlay is for wireless data transfer.

Playing music through Sonos is done with an iPad. iPad code: 0000. Open the Sonos app, on the home page you will find the Spotify app. With the program you can choose which speakers the music will play on.

The house has its own Spotify account, please do not log out of it.

The house’s Wi-Fi password: forest123
