

JACUZZI

The pool is always serviced and ready for bathing before your arrival.
There are a few things that holidaymakers should take into account and thus contribute to
keeping the water clean throughout your holiday:

The pool has an automatic cleaning program every day from 9:00 to 11:00,
so do not bathe in the tub at this time.

Please make sure that the lid is closed after bathing.

Always wash thoroughly and clean your feet before entering the pool.

No foams, other detergents or bath products, or objects that can block the
water circulation may be added to the pool.

No drinks may be poured into the pool or eaten there.

No smoking is allowed in the pool.

No entry into the pool with freshly dyed hair.

Only plastic glasses are used in the pool. (found in the display case on the promontory)

You are not allowed to change the water in the pool yourself

You are not allowed to add water treatment products to the pool yourself.

The water temperature can be adjusted to suit you between 26 and 40 degrees.
From experience, we can say that the best water temperature for entering the pool is:

IN SUMMER 36-37 degrees

IN WINTER 38-39 degrees

For cleaning and water changes due to incorrect use, we charge
-150€ for cleaning and water changes
